Dear George,

We received a few days ago the « Let Freedom Ring » documentary. Thank you so very much and Congratulations ! We just couldn't believe what came out of this 38 hours of filming in Belgium !

It is so moving and touching, it's not Hollywood, it's the reality, the real people who suffered so much and the real liberators.

Your DVD shows the sufferings of all these men and women. It's impossible to watch it without having tears in your eyes.

We knew already, as Marcel lived through these years, that we don't have the right to forget and also the importance of what we owe to all of our liberators. We understand the price of Freedom as we lost ours for so many years, twice in 22 years (WWI and WWII) but it's so very important to teach the younger generations as they are the future in order to make them understand that freedom is never free and also to make them appreciate all the freedom's they have as they often take everything for granted. We sincerely hope that your DVD will be shown in all the High schools in The States but also over here, in Europe.

Dear George, thank you for what you did for our Freedom 62 years ago, a awful task but it needed to be done and you and your comrades did it. Thank you also for the special « Let Freedom Ring » film which shows the human side of the soldiers and the people they liberated.

We will always remember and love you. That's our duty !

We send you our warmest thanks and best wishes.

Your Belgian friends
Mathilde and Marcel Schmetz
